

The entire curriculum of the school has been planned to full fill the overall needs of the students. As per the C.B.S.E. Guidelines – each Subject is tested and marked to the thinking, understanding & logical skills. We also carefully nurture the emotional and social skills of students to improvise the leadership, attentiveness, application and investigatory skills.

In strict regulation with the CCE, the assessment in classes VI-X is made at Formative and Summative level, by conducting different activities and through the written examinations, including subject specific areas and co-scholastic aspects encompassing life skills, co-curricular activities, attitudes and values. In this context, they are persistently exposed to MCQs, projects, creative writing, listening skills, narration, story writing, dialogues, class presentations, enactments, source analysis, Power Point Presentations etc.
